We are entering the twentieth year of a worship intercession that has reached across the nations, but has its home in Wales.

The 1904 Welsh Revival impacted Europe, Africa, Asia and the U.S.A. However, the First World War saw revived nations fighting each other. The well of gospel-flowing water was blocked. Our calling is to unblock it.

THE VISION

I saw the most amazing water, it was the colour of sapphire, and light shone from within it. I tried to touch it, but something blocked my hand.

When I looked up, there were people from many nations, all of us desperate to get to the water. The Lord told us 'It is impossible from your side, but if you sing, the water will break out and come to you'.

There are encouraging signs that the living water of revival is again beginning to break out in Wales and the UK, and in many other lands. We are pressing in for more.

United worship is key.

Join us!

Gather the people together, so that I may give them water.

Then Israel sang this song:

SPRING UP O WELL!

Numbers 21:16-17
